MEMORANDUM FOR MR. J. C. STRICKLAND

With reference to the attached teletype from the San Francisco office advising that it is urgent that approximately 65 named individuals whose citizenship is unknown should be taken into custody, Special Agent in Charge Pieper was telephonically contacted and advised that that office should ascertain whether the individuals are citizens or aliens. He stated that investigations had been conducted in the past on these individuals and that they had been unable to ascertain whether they were aliens or citizens. He was told that if he could determine the citizenship status of any of the individuals and would submit summaries as to the information concerning them, the matter would be taken up with the Department for decision as to whether they should be arrested.

In connection with the attached teletype, I called the San Francisco Office at 5:00 AM today and talked to M. B. Myerson in the absence of SAC Pieper.

In accordance with Bureau instructions, I advised Myerson to follow the previous Bureau teletype in connection with the apprehension of the individuals mentioned in his teletype. In this connection I instructed him to pick up only aliens where the only basis for detention was information that arrest would be necessary for the best interests of the internal security of this country.

THE DIRECTOR

While in telephonic conversation with SAC Pieper in San Francisco, he advised he had talked with G-2 who informed that the Interceptor Command definitely stated the planes off San Francisco were enemy planes. Mr. Pieper stated that the Interceptor Command's equipment located these planes 80 miles off the coast and followed same until they were 20 miles off San Francisco at which time they turned back. G-2 explained to Mr. Pieper that the enemy planes probably turned back inasmuch as a fog bank was coming in and they received orders to return to aircraft carrier to avoid being lost.

Mr. Pieper stated that they operated successfully during the blackout and have a total of 162 aliens in custody.

MEMORANDUM FOR MR. TAMM

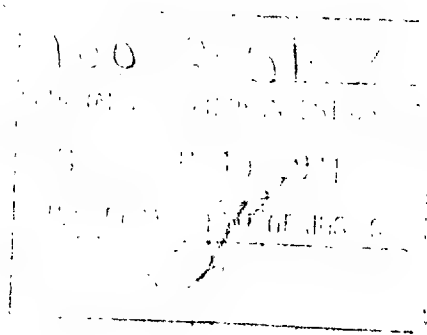

6:50 p.m.

SAC Pieper called from San Francisco to request authority to immediately pick up all German aliens on whom custodial detention material has been submitted to the Bureau, even though replies have not yet been received as to the classification thereof by the Department.

I informed Pieper that we could, of course, not give him authorization to pick these individuals up until advice to that effect was received from the Department. I instructed him to furnish full particulars concerning the individuals in question to the Bureau by teletype, indicating that every effort would be made to secure the replies from the Department at the earliest possible moment.

MEMORANDUM FOR MR. TOLSON

MR. LADD

At this time I called SAC Pieper in San Francisco relative to a conversation I had just had with the Attorney General. I told him that the Attorney General advised me that General BeVitt, commanding the Army Ninth Corp Area, had communicated with the War Department relative to using local police to keep certain groups of aliens under surveillance. I told Pieper that the Attorney General had been pretty vague about the details of this matter, so that the material I would give him might not check completely when he checked into the matter.

I told Mr. Pieper that the substance of the communication was that General BeVitt wants to use the police at the direction of the Army to keep certain groups of aliens under surveillance. I told Mr. Pieper that the Attorney General had been in consultation with a Mr. Bundy, a civilian assistant to the Secretary of War and it had been agreed here at Washington that if the Army wants anything dealing with police or the civilian character, that should be taken up with the FBI; that the police and all civilian agencies are mobilized under us and that therefore if there is any surveillance of aliens that the Army thinks should be done, the matter should be taken up with the appropriate SAC of the FBI who could then evaluate it and decide exactly what he thinks should be done and if it is then decided that we should use police on the surveillance the orders and instructions will be given by the FBI to the police. I told Mr. Pieper that a man who the Attorney General believed was General Langley, an assistant to General BeVitt was behind this and that I wanted him, Pieper, to find out who and where this General Langley was, that of course if he were at Los Angeles, I would call Mr. Hood on this matter.

I instructed Mr. Pieper to take this matter in a tactful manner with General Langley, or if need be, General BeVitt, and explain that these police and civilian agencies are looking to the FBI for necessary direction and orders. That we are in direct touch with them and have them well lined up. I also warned Pieper that the Army may have that it could be simplified by taking it up directly with him, Pieper, who is authorized to handle these matters. I also warned Pieper not to be over-enthusiastic in agreeing to anything, to keep his feet on the ground. I told him confidentially that the feeling here was that BeVitt might be a little excited about things that he ought not be; that the idea about arresting married couples was probably not a bad idea.

but it was something that should not be done just yet. I told Pieper that it would be well if he could get over that until such time as martial law might be declared, it would simplify things if at such times as the Army wants things done by the local authorities, to have them take it up with him or any other SAC on the West Coast. I also told Mr. Pieper to suggest that if General DeWitt wanted anything through any of our other Coast offices, all he would have to do would be to have his aide contact Pieper who would see that the matter is handled in the other districts. Such a procedure would eliminate having Generals up and down the Coast running in and out.

I ran word to Mr. Pieper that it did not seem necessary to me to grab a lot of aliens at the present time, that we have the so-called 'bad' aliens locked up. Mr. Pieper then remarked that the problem now was citizens. I told him that was an entirely different problem and that the Attorney General would not authorize anything to be done against citizens; that he didn't believe in any prosecution under the Sedition Laws. I told him that they had a good case built up in Los Angeles and it had been dismissed by the Attorney General. Pieper said that he believed there would be some newspaper comment on that. I told him that I did not sympathize with that policy at all as I felt that you had to teach some of those fellows a lesson; that on the other hand in regard to the Army wanting local authorities to do this, that and the other thing, it might be necessary and if so should be cleared with him. I told Mr. Pieper to keep in very close touch with either Mr. Tamm or myself so that we could get clearance on policy as there are a lot of things that he, Tamm and I might want to do but would be prevented from doing so by higher ups here.

I instructed Mr. Pieper to have very cordial relations with General DeWitt on this matter. Mr. Pieper stated that he had always got along very well with the General, that the General in his conversation yesterday stated that he realized Pieper could not make any recommendations but had just wanted to talk with him. He said that while talking with the General he had tried not to be critical of anyone but tried to just state positions. I told him that I wanted DeWitt to understand that we like him had to follow certain policies whether we believed in them or not. Mr. Pieper stated that he felt that was what the General's view was. He stated that the General felt he might be able to get some action out there where we couldn't. I remarked that maybe he could because in the time there might be things happening that would require action. Mr. Pieper stated that DeWitt felt very keenly about the Briggs matter and had stated that it would create quite a stir in Washington, but he felt we weren't getting the action we desired and that he was going to see what he could do. I remarked that DeWitt was the Commanding General of that Area and was free to do as he wished.

Pieper stated that he would keep in very close touch with General DeWitt and would call me as soon as he got the latest developments.

Very truly yours,

John Edgar Hoover

MEMORANDUM FOR MR. TAMM

Special Agent Van Pelt of the San Francisco Office called to inquire concerning the teletype received which indicated that they were not to apprehend any individuals on the list furnished by the Bureau who were found to be citizens of the United States.

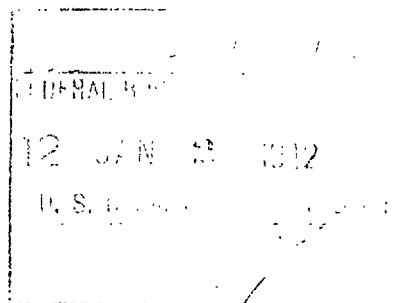

I told Van Pelt that this was correct; that they would have to let those go who were found to be citizens; that if they have any particular citizens who are dangerous, they should send in an individual inquiry on each one and we will try and get clearance from the Department on them.

Van Pelt inquired as to whether it would be necessary to send in individual inquiries on those names listed in his teletype of December 8th as being American citizens with pro-German tendencies. He advised that this teletype contained approximately 65 names. I told Van Pelt we would check with the Department on these names and try and get clearance on them.

SAC Pieper of the San Francisco Office called and stated the United States Attorney there has received instructions to start hearings and the FBI is to sit in on the board. The United States Attorney advised that he received word to the effect that instructions were going out immediately, confidentially, on the civilian board setup, but in the meantime, the United States Attorney wants to conduct hearings now on those persons least likely to be dangerous and he has listed them. Pieper stated the list contains the names of some individuals who are not even in custody. They were picked up but released after their citizenship was determined. Pieper stated he was advised that this is only a temporary setup and they claim that the FBI is to review the file with the United States Attorney before the hearing and there will be no formality in the hearings. Pieper wanted to know what part he should take in these hearings.

I told Pieper this matter will be taken up and he will be advised as to what action he should take. He requested that the instructions be sent by teletype because they come through much faster than by telephone.

the Federal Bureau of Investigation and was particularly pleased at the arrangement which I instructed the Agent in Charge at San Francisco to effect whereby General DeWitt and his aides and the Military Intelligence Division of the Ninth Army Corps Area would deal with but one representative of the FBI, namely, the Special Agent in Charge at San Francisco, who in turn would be in communication with the other Special Agents in Charge of the FBI in the Ninth Corps Area, namely, at San Diego, Los Angeles, Portland, Seattle, Salt Lake City, and Phoenix, as well as with the Washington headquarters of the FBI.

It would seem that in view of the situation existing upon the West Coast, particularly with the operations of the enemy submarines within sight of the Coast and the information which the Army has that there have been radio communications between the Coast and enemy submarines at sea, prompt promulgation and enforcement of alien enemy regulations would be most desirable.

MEMORANDUM FOR THE ATTORNEY GENERAL

In compliance with your request of today, I instructed the Agent in Charge of the FBI at San Francisco to contact immediately General DeWitt relative to the request that had been made by General DeWitt, the Ninth Army Corps Commander, that aliens be kept under surveillance by police authorities in the Ninth Army Corps Area, which covers the entire Pacific Coast.

I have received a telephonic report from the FBI's Special Agent in Charge at San Francisco, advising me that he contacted General DeWitt's office and that at the suggestion of General DeWitt discussed the matter with General James L. Bradley, who was handling this particular activity for General DeWitt.

The matter originated by a letter sent by General Jay L. Benedict, which letter was sent under the direction of General DeWitt to all of the Governors in the Ninth Army Corps Area. In substance it requested the Governors to have all their law enforcement agencies keep alien enemies under general surveillance in order to prevent possible sabotage and espionage. This letter was dated December 8, 1941.

Governor Arthur B. Langlie, of the State of Washington, replied by letter of December 12th to General DeWitt, setting out that the request of the General seemed to be in direct conflict with the instructions received by the Governor of Washington from Harold E. Stassen, the Chairman of the Council of State Governors. The instructions from Governor Stassen, dated December 3th, were to the effect that the Department of Justice was handling all alien matters.

General DeWitt, by letter of December 17, 1941, communicated with the Provost Marshal General at Washington, D. C., with which he inclosed the correspondence relative to this matter. General DeWitt requested in his letter to the Provost Marshal General that action be taken to clarify the situation to the Governors in the States comprising the Eastern Defense Command, which is the Ninth Army Corps Area. General DeWitt wanted the Governors of these States to feel free to issue such instructions and directions as they deemed necessary for the surveillance of alien

6 JAN 5 1942

enemies and sympathizers who had not been arrested by the FBI under the alien enemy arrests project.

General DeWitt replied to the Governor of Washington, stating in substance that he, General DeWitt, knew that it is the FBI's province to handle the alien enemy matters, but that he, the General, also in the common interest, in order to prevent sabotage and because of the potential dangers, wanted every step taken so that everything could be covered.

The Special Agent in Charge of the FBI at San Francisco had a lengthy discussion with General Bradley relative to just what General DeWitt desired, and briefly, the substance of General DeWitt's desires are as follows:

He wants the Attorney General to implement the President's Proclamation.

He wants the Attorney General to issue and execute regulations regarding the conduct of alien enemies immediately. The Army is disturbed about aliens having guns, radios, et cetera. General DeWitt stated that the Army knew that there were communications between shore and submarines off shore. The Army desires that radios be taken from all aliens.

General DeWitt indicated that the Army would like a simultaneous raid on all residences of all aliens so that they could seize such articles at one time. It was pointed out to him by the Special Agent in Charge of the FBI that such a move would be a tremendous project; that is to say, to raid the residences of every alien simultaneously in the entire Ninth Army Corps Area. General DeWitt stated that the Army believed that the issuance of orders to aliens to bring in such articles would not be effective in that those who are engaged in espionage activities wouldn't bring these articles in anyway, and that therefore there would have to be some kind of simultaneous search and seizure.

The sum and substance of what General DeWitt desires seems to be that he wants immediate action by the Attorney General under the President's Proclamation relative to the activities and conduct of alien enemies in the Ninth Army Corps Area. He is entirely agreeable to work with

"I also had a copy of the letter to the Governor by General DeWitt and in substance he tells him that he knows that it is the FBI's province to handle these matters, but he also, in the common interest, in order to prevent sabotage and because of the potential dangers, wanted every step taken so that everything would be covered.

"I had quite a discussion with General Bradley relative to just what General DeWitt wants, and in a brief summary this is exactly what the General wants, that is when all of these letters are summarized, although he may have given an inference of wanting the States to do certain things, the substance of his desires are these:

"He wants the Attorney General to implement the President's Proclamation. He wants the Attorney General to execute the regulation regarding the conduct of alien enemies immediately. He wants action by the Attorney General. The Army is disturbed about aliens having guns, radios, et cetera. He mentioned to me that they knew that there were communications between shore and submarines off shore. They want these things taken from all aliens. They indicated they would like a simultaneous raid on all residences of all aliens so that they could get the stuff at one time. I pointed out to him that the question of that information would have to be compiled as to the residences of every alien to effect such a simultaneous raid, which was quite a project. They stated that they thought that was more desirable than issuing orders which told them to bring it in which would tip off others who wouldn't bring it in anyway.

"But, the thing in a nutshell is that they want action by the Attorney General, want him to do something under the President's Proclamation. They are very agreeable to work with the Bureau, they want me to work in close contact with General DeWitt and his aides and their G-2. The Director had mentioned to me that we should develop a close contact there and the Army is particularly desirous of having both contacts made with me and then orders issued by the Bureau to the various Special Agents in Charge in this Combat Area. The Director discussed that with me generally. They are very agreeable to that and as a matter of fact are particularly pleased that they can deal with one man, that I can go directly to the Director with the law enforcement problems."

I told Mr. Pieper that I would bring this information to your attention. He stated that he would submit complete details with regard to this situation by air mail special delivery to the Bureau immediately.

MEMORANDUM FOR MR. TOLSON

MR. LADD

I called the Attorney General to advise him that I had contacted our Special Agent in Charge at San Francisco who stated that he knew nothing about the matter which Mr. Biddle had discussed with me earlier today. I also told the Attorney General that our Special Agent in Charge there did not know any General Langley but did know General DeWitt.

The Attorney General checked on the name of General Langley and determined that he had previously advised me erroneously as to the correct name. He advised me that the name should have been General Benedict who is the assistant of General DeWitt. Mr. Biddle said he was sorry that he had advised me incorrectly. I told him that it did not make much difference because I had instructed SAC Pieper at San Francisco to immediately contact General DeWitt and endeavor to have all civilian matters and matters dealing with civilian police activities cleared through our office at San Francisco.

I pointed out to Mr. Biddle that SAC Pieper feels he can amicably straighten out this matter. I asked him to let me know when he has received clearance on the CIO matter on the coast because I have made the necessary plans to take care of this matter once I am given the go-ahead signal.

I also asked Mr. Biddle if he has received any word on the Western Hemisphere matter. He said that there has been no developments as yet on this point. I remarked that I had sent around to him this morning appropriate directives on this situation.

MEMORANDUM FOR MR. TOLSON
MR. TAMM
MR. LADD

I called SAC Pieper at San Francisco and while discussing with him other developments, he advised me that the cases on enemy aliens in his district have been progressing very satisfactorily. He mentioned, however, one case which is causing considerable conversation. He said that in the case of Doctor Hansgrick (phonetic), who is engaged as an official in a magnesium plant, considerable pressure has been brought to bear regarding his case in view of his standing and value to the National Defense program. I asked Pieper if he has obtained any definite information showing the status of this individual. He said that some letters have been intercepted through censorship and in addition some other material was obtained at the time the Doctor was picked up which indicates that he has been dealing with the German government on certain occasions.

I asked Pieper what type of people he has been running into on the hearing boards. He said he has been greatly concerned about this matter and pointed out that there are two members of the board there who have Japanese associated backgrounds. He said that a Marshal Bill, who was formerly with the exposition there and who, as a matter of fact, comes from one of the two American families who have ever owned any land in Japan, is a member of the board. The second member is a Mr. Lillie (phonetic - Pieper did not have at his disposal the correct spelling of this man's name) whom Pieper said was formerly the attorney for one of the largest Japanese organizations there.

I pointed out to him the background on the appointment of the board members, advising him that the appointees have not been investigated by us. I told him that I had suggested this policy but the Department took the stand that anyone known to the Attorney General should not have to undergo the embarrassment of being investigated. I advised him that as a result of the policy adopted, the Bureau has not as yet investigated any of the board members.

I told Pieper to prepare a memorandum for the Bureau as soon as possible outlining the instances in this regard that have come to his attention. I told him to include all definite instances, similar to those he outlined above, as possible. I told him I wanted this material to back up my stand with the Department of Justice.

Very truly yours,

Special Agent Van Pelt of the San Francisco Office called and stated that he has received information from Mr. Nixon of the Immigration Service that he is removing the subjects who had been picked up in connection with the custodial detention program to Fort Missoula, Montana, that is the subject who have been classified as either "A" or "B". Mr. Van Pelt stated that it is their understanding that hearings are to be held before any of the subjects are removed for detention at Fort Missoula. Van Pelt stated that he had been in touch with the United States Attorney who stated that he concurred in the view that it would be much more expeditious for the hearings to be held in San Francisco rather than at Fort Missoula later on. I told him that this would probably be more expeditious, but I understood that the Army is anxious to evacuate all the dangerous aliens out of that area before any activity starts.

Mr. Van Pelt stated that they have not been advised of the classification of all of the individuals. I told him that we had not been advised either, that the Department is handling that and on those that the Department has sent ratings to us on, we have forwarded that information to his office.

Mr. Van Pelt inquired as to the procedure to be followed on those who are being removed to Fort Missoula. I told him that we do not know this, that it is a problem for the Immigration Bureau to handle. Mr. Van Pelt stated that they contemplated holding hearings at San Francisco in the morning, that the hearing board was set up this afternoon. I told Mr. Van Pelt that we have nothing to do with the hearings except to be present to give the information which we have on the individuals. I pointed out to him that an agent of the Bureau Office could probably testify from the file just as well as an agent from San Francisco. I told Van Pelt to keep us advised of anything that might be done in connection with this matter, but that we are not in the position to object to the procedure followed because the individuals are out of our custody.

Mr. Van Pelt inquired as to whether the Bureau's confidential sources of information should be given at the hearings. I told him that our sources of information will have to be protected. He inquired as to whether it should be stated that information was obtained from G.I. I told him that he would have to check with G.I. concerning this.

Respectfully,

RE: ARREST REGISTER
PHOENIX FIELD DIVISION
ALIEN ENEMY CONTROL

Dear Sir:

Reference is made to your letter dated April 25, 1942, in the above entitled matter, in which you advise that the apprehension of George Walter Otto Rau was not reported on the Phoenix arrest register due to the fact that Rau was not taken into custody under the Alien Enemy Control Program.

Reference is also made to the report of Special Agent C. K. Smith, dated December 15, 1941, at Phoenix, Arizona, which reflects that the subject was apprehended on December 9, 1941, at Tucson, Arizona, by Bureau Agents, inasmuch as it appeared that Rau had falsely claimed United States citizenship. The report further reflects that this matter was not discussed with the Assistant United States Attorney until December 10, 1941, when it was determined that the Immigration Service at Tucson, Arizona, had instructions to transport all persons picked up for custodial detention to El Paso, Texas, for safe-keeping at Fort Bliss, Texas. In accordance with the authorization of the Assistant United States Attorney, a complaint was filed on December 10, 1941, charging the subject with falsely and fraudulently representing himself to Local Draft Board #2, Tucson, Arizona, as a citizen of the United States, and the subject was taken into custody by the United States Marshal.

It appears, therefore, that no warrant was outstanding at the time of Rau's apprehension, and you are instructed to consider the warrant dated December 8, 1941, transmitted with Bureau letter dated April 29, 1942, as a covering warrant for this apprehension, and to record the apprehension and subsequent release of Rau to the United States Marshal on the next weekly field division arrest register submitted by your office.

Your attention is also directed to the fact that your office has assigned arrest serial number G-32 to two individuals, namely Louis Andrews and Theodore Kane. The Bureau desires to be advised of the proper arrest number of each of these individuals.

Re: ARREST REGISTER

Dear Sir:

Pursuant to instructions contained in Bureau letter dated February 17, 1942, there is being transmitted herewith the weekly register reflecting all apprehensions by this office of Italian individuals for the week of April 19, 1942. There have been no apprehensions by this office of individuals of German or Japanese ancestry during this last week.

In addition to the information set forth regarding the apprehension of the Italian Alien Enemy for this last week, this office has received additional information concerning the disposition of previously arrested and previously recorded individuals of Japanese, Italian and German extraction. This information is set forth in this week's Alien Enemy Arrest Register, as directed in the Bureau letter of February 17, 1942.

With reference to Bureau letter of April 20, 1942, this is to advise that GEORGE WALTER CITU, apprehended by Bureau Agents in Tucson, Arizona on December 9, 1941, on a charge of fraudulently representing himself as a United States citizen, was not carried on the Phoenix arrest register due to the fact that he was not taken into custody under the Alien Enemy Control Program.

With further reference to Bureau letter of April 20, 1942, it will be noted that LOUIS ANDREWS, Hungarian national, apprehended on January 8, 1942 by Bureau Agents, has been recorded on the German Arrest Register of the Phoenix Field Division.

To date there have still been no delinquencies nor deferments in the apprehension of individuals whose arrest has been authorized by the Bureau or the United States Attorney.

Re: INTERNAL SECURITY
ALIEN ENEMY CONTROL

Dear Sir:

With reference to Bureau teletype of April 16, 1942, requesting that summaries be submitted immediately on all French aliens, please be advised that a review of the records of this office has failed to reflect any French organizations or individuals of French origin in the State of Arizona, who are engaged in activities against the interest of the Government.

Investigations are being made at the present time to determine whether there are individuals located in the State who might be considered dangerous to the internal security of the country who are of French origin. For the information of the Bureau, the best available data reflects there are fewer than 250 persons in Arizona who are of French birth and that a large number of these individuals are engaged in the sheep industry and reside in the remote mountainous areas.

PHOENIX FIELD DIVISION

✓ DR. TAKAICHI HOYJO, 126 Obregon Avenue, Nogales, Sonora, Mexico. He has been operating as a dentist at Nogales, Sonora for some time and has three Japanese men in his office who pose as technicians. One of these men is a radio operator. HOYJO formerly had a broadcasting set at his residence but lost his operator's license for talking direct to Japan without the proper license. He is reported as a Japanese head of a setup of the Japanese and German element in Sonora, Mexico. He is also reported to have passed out Japanese propaganda pamphlets in Mexico and may be the dentist who is reported to be the clearing house for Japanese activities in Sonora, Mexico.

✓ CHARLES KISSELBACH, Nogales, Arizona, local agent for the Hermosillo Brewery, Hermosillo, Mexico, is reported to be the son of a German army officer and to have been handling the affairs of the German government at Nogales, Sonora, Mexico, for several years. The Brewery is owned by Hoeffler Brothers, Germans, and KISSELBACH is frequently seen in the company of CARL MOLLING.

✓ CARL E. MOLLING, residence address, 2518 Orchard Avenue, Tucson, Arizona; business address, 513 Valley National Bank Building, Tucson, Arizona. He came to Mexico after the World War as a German officer for the purpose of assisting the Mexican government in building up its army. He later is reported to have been a German Consul in Mexico, married a Mexican woman who is related to the former governor of Sonora, Mexico. MOLLING has since become a naturalized citizen of the United States and in recent months operated a bureau at Tucson, Arizona, for the purpose of conducting tourist trips into Mexico. He apparently lives beyond the income derived from the tourist bureau, is reported to have some official connection with the Mexican government and to have contacted German warships off the Mexican Coast.

✓ TSUJIO NAHA, Nogales, Sonora, Mexico, is one of the Japanese assistants of Dr. HOYJO above mentioned.

✓ OTTO H. WINKLER (also reported as Otto A. Winkler), Cortaro, Arizona. He is a manufacturing jeweler by occupation and entered the United States in 1914. He sends and receives a great amount of mail through a post office box in Tucson, Arizona, which is 15 miles from his residence, although the Cortaro Post Office is only 5 miles from his residence.

residence. His home is reported to be Redbank, New Jersey, although most of the year is spent at Cortaro, Arizona. He was arrested April 29, 1918, and placed at Fort Oglethorpe, Georgia, for the duration of the war. He is a member of the National Rifle Association and has a large number of guns in his possession. He handled the German Relief Funds and was generally considered by many as being the financial head of German propaganda work at Edgewood, Rhode Island, where he is manager of the W. A. H. Wells Company, manufacturing jewelers. It was believed that WINKLER endeavored to obtain information relative to the financial condition and output of Curtiss Airplane and Motor Corporation prior to his internment. WINKLER presently associates with Dr. TANNHAUSER of Desert Sanitarium and Dr. BLATSINGER, German physician, not authorized to practice, both being located at Tucson, Arizona, and also a Mr. ZAE, a honey producer, Cortaro, Arizona. Further investigation of WINKLER'S activities is being conducted at the present time.

RE: ALIEN ENEMY CONTROL
ARREST REGISTER
PHOENIX FIELD DIVISION

Dear Sir:

With reference to your letter dated February 17, 1942, there is being transmitted herewith a duplicate-original of the permanent register reflecting all apprehensions by this office to date of German, Japanese, and Italian individuals.

Your attention is respectfully directed to column five captioned, "Miscellaneous", under the classification, "Authorization For Arrest". The terms, "USA emergency order", "Contraband USA", "Contraband", and, "No travel authority USA", are listed as being the bases for the arrest of certain individuals. The explanation of these terms is as follows:

USA EMERGENCY ORDER: This is employed to show the situation where the individual apprehended was believed to be dangerous to the welfare of the country either because of his affiliations with foreign countries or because of statements or actions on his part which would lead to such a conclusion and in which there was not time for a request from the United States Attorney under circumstances outlined in paragraphs three, four, five, and six of Bureau Bulletin No. 71, Second Series 1941, dated December 27, 1941. The authority of the United States Attorney thus obtained was of an emergency measure.

CONTRABAND USA. This term is employed where, upon searching an alien's premises with the authority of an Executive Search Warrant, contraband material was located, and upon the basis of such material the United States Attorney gave his authority for apprehension.

March 12, 1942

CONTRABAND. This term is employed in those cases where, upon authority of an Executive Search Warrant, a search of an alien's premises disclosed contraband, where upon the alien was summararily arrested and brought before the United States Attorney.

NO TRAVEL AUTHORITY USA. This term is employed in those cases where an alien enemy was apprehended by local law enforcement agencies, generally for investigation, and it was discovered that such individual had no travel authority from the United States Attorney. Subsequently authority of the United States Attorney had been obtained to take such individual into Federal custody and turn him over to the Immigration & Naturalization authorities.

To date there have been no delinquencies or deferments in the apprehension of individuals whose arrests have been authorized by the Bureau or the United States Attorney, and, accordingly, the permanent record to be maintained by this office in such matters is not being forwarded at this time but shall be so forwarded immediately upon the contingency of such delinquency or deferment being present.

SAC Bryce of the El Paso Office called and advised that the Japanese situation at Clovis has "exploded." He stated that Mr. Rowe, Assistant to the Attorney General, contacted the United States Attorney at New Mexico today, about an hour ago, and told him to apprehend every Japanese in Clovis immediately and to cause their internment. Bryce advised there are eleven men and five women who are aliens, and sixteen children of school age who are citizens. I inquired if the citizens are to be picked up too and he advised the United States Attorney received such instructions from Mr. Rowe.

Bryce stated he was calling to inquire what he should do about this, in view of the fact that the United States Attorney has asked that he apprehend those people. He advised that he has no evidence against them except that they are not liked there. The United States Attorney will not issue warrants for them, but only cause their apprehension.

Bryce stated one of the newspapers has been printing some stories about this situation and another one has run an editorial advising the people that they should not have the feeling toward the Japanese that they do and so forth. However, the United States Attorney, who is presently at Clovis advised that the sheriff has deputized about 50 men in and near the railroad shops, all of them carrying guns and stated that one drunk could cause all of these Japanese to be burned or lynched. The United States Attorney stated the apprehension would be for their own protection.

Mr. Bryce was advised that if the United States Attorney issues warrants, then he should pick them up and hold them; otherwise, he should not pick them up. I told him that the United States Attorney has the authority to issue such warrants.

I further advised Mr. Bryce that the Bureau received a call from the Department to the effect that the Immigration and Naturalization Service is going to take these Japanese into custody, that the Immigration agents are supposed to be at Clovis to take them into custody now.

Mr. Bryce stated that he will take no action unless the United States Attorney issues these warrants.

Respectfully,

D. M. Ladd

At your instructions, I called to the attention of Colonel J. T. Bissell the attached teletype setting forth that Colonel A. W. Roffe, Assistant Chief of Staff, G-2, had instructed the Base Intelligence Officer of the Army Air Base to place under surveillance all suspicious persons in his station with special attention to Japanese, Germans, Italians, and Finns. Colonel Bissell was requested to advise the writer as to whether or not this would have any effect upon the jurisdiction of such cases under the limitation agreement.

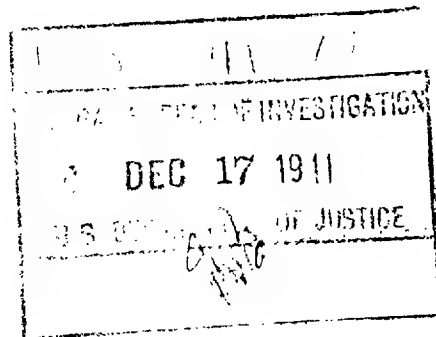

Colonel Bissell advised that it would not and pointed out that the telegram specifically restricted the activities of the Base Intelligence Officer to his own station. Colonel Bissell advised that he would watch for similar instances and would be careful to abide by the limitation agreement.

Respectfully,

C. C. Burton

PERSONAL AND CONFIDENTIAL

Special Agent In Charge
Seattle, Washington

Dear Sir:

RE: PERSONS CONSIDERED FOR
CUSTODIAL DETENTION IN
EVENT OF NATIONAL EMERGENCY.

Reference is made to your letter of June 25, 1940, transmitting a list of names and addresses of persons in your division who should be considered for custodial detention pending an investigation in the event of a national emergency.

In connection with Miss Belle McKenzie, 2418 Viewmont Way, Seattle, Washington, you point out that she was one of the founders in 1932 of the Seattle branch of the League For Independent Political Action and you further state that the Seattle files contain no additional information.

For the completion of your records on this individual, it is pointed out that she is mentioned in the report of Special Agent Albert C. Bise, Seattle, Washington, February 15, 1940, in the case entitled Victor Hicks, et al, Subversive activities. The above mentioned report sets out information received from Fred Hendricks to the effect that Belle McKenzie, listed in the Seattle City Directory at 2901 Oakes Street as a teacher at Seattle High School, is a rabid Communist who teaches Communism in her high school classes.

Very truly yours,

John Edgar Hoover
Director
